The Compliance Corner is focusing on **Fort Novosel Environmental News** this quarter. Let us know if you would like information about a particular topic, and we will include it in the next Flying Green article.

## October is Energy Action Month

Fort Novosel's Directorate of Public Works (DPW) Engineering Division is advancing its energy-saving initiatives by installing LED lighting in key facilities across the post. In addition, a new project to install electric vehicle (EV) chargers, funded by the Installation Management Command (IMCOM), is underway, further supporting the base's commitment to sustainability and reducing its carbon footprint. Below are a few energy saving tips and tricks:

- 🌱 Switch to energy efficient light bulbs
- 🌱 Lower your water heater temperature
- 🌱 Weather strip around windows and doors
- 🌱 Seal around windows with caulk
- 🌱 Get Smart with your thermostat

Visit [energy.gov](https://www.energy.gov) for more energy saving tips.
